tile.pdf

Good Morning Jim,

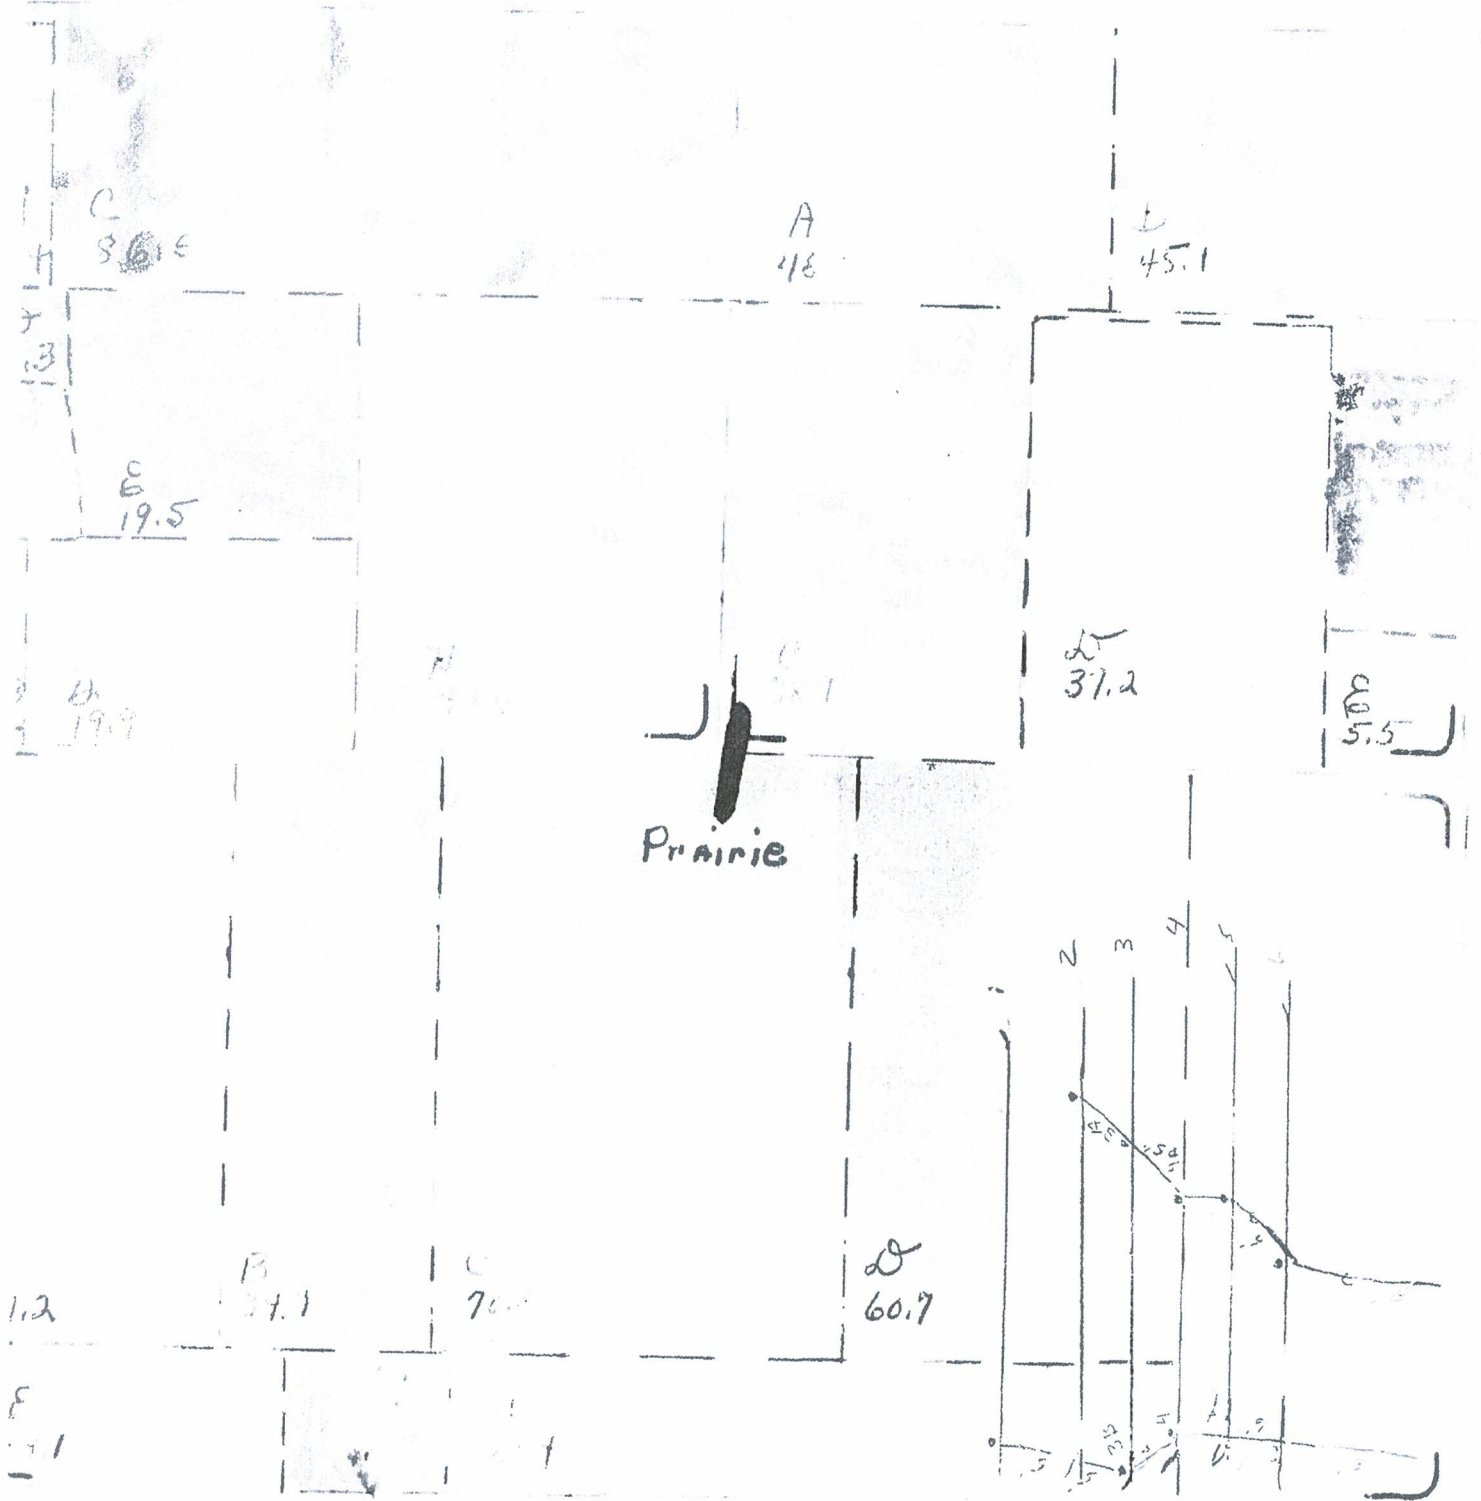

Attached is some tile information I found in our files here at the office. Unfortunately whoever filled out the information did not do a good job of drawing on the maps to show the tile, if they did at all. I attached a map showing where the tile should be for the terraces, especially on the east side of the farm. As far as other information for the farm, there is no conservation plan on file and the terraces have met their lifespan as far as a maintenance agreement goes for them. The tract does have a Prior Converted/Non-Wetland (PC/NW) determination on file so no wetland issues out there.

Let me know if you have any questions. Have a good one!

Brian
